## Programació **English ESO**

- This year, the students of ESO will take part in various activities and projects, to help to introduce, practise and extend their knowledge of English.
- The classes are organised according to level and comprehension.
- The aim is for the students to feel comfortable and happy in the environment.
- The classes will focus on specially designed themes and projects, depending on their knowledge and understanding.
- Grammar, vocabulary, sentence structure and general conversation will also be worked on, integrated into each project or theme.

## Objectius English ESO

- For the students to enjoy taking part and to feel comfortable in the environment.
- To have the benefit in working in a smaller group, and having classes specially designed and organised depending on the level and interest of each student.
- To increase their confidence when speaking English.
- To increase their current knowledge and understanding.
- To introduce new vocabulary, grammar and structure.
